TITLE	Fall 2001 Enrollment and Admissions Summary Report.
INSTITUTION	Massachusetts State Board of Higher Education, Boston.
PUB DATE	2002-00-00
NOTE	103p.; Prepared by the Office of Planning, Research and Assessment.
AVAILABLE FROM	For full text: http://www.middlesex.cc.ma.us/ Strategic_Planning/ data/admenrrpt.pdf.
PUB TYPE	Numerical/Quantitative Data (110) -- Reports - Descriptive (141)
EDRS PRICE	EDRS Price MF01/PC05 Plus Postage.
DESCRIPTORS	*Admission (School); *Enrollment; Graduate Students; *Higher Education; School Statistics; *State Colleges; Undergraduate Students
IDENTIFIERS	*Massachusetts

ABSTRACT

This report presents segmental and institution-specific enrollment and admissions data for 28 of the 29 institutions that comprise the Massachusetts public higher education system: the University of Massachusetts (4 campuses), the state colleges (9 institutions), and community colleges (15 institutions). Data are collected for the University of Massachusetts Medical School in Worchester, but traditionally they are not included in the system enrollment report. The data focus on basic enrollment and admissions statistics. These highlights show that 181,187 students enrolled in fall 2001 credit courses at Massachusetts public colleges and the university system, generating 123,612 full-time equivalent (FTE) students. This represents a 1.6% increase in headcount and a 2.9% increase in FTEs. Section 1 contains some data highlights. Section 2 contains data on enrollment, including headcount figures for degree and nondegree seeking undergraduates and graduate students. Section 3 contains information about admissions and system applicants. Section 4 provides some information about special admissions, including transfer students. (Contains 32 tables.) (SLD)

Introduction

Providing accessible, high-quality postsecondary learning opportunities to Massachusetts residents is the mission of the Massachusetts public higher education system. As the fall 2001 Enrollment and Admissions Report reveals, the public system is fulfilling this mission. In fact, the Commonwealth's public higher education system achieved the highest undergraduate student enrollment, full-time equivalent enrollment (FTE), applicants seeking admission, and new student enrollment recorded in the last five years. This growth is testament to the commitment of the state's public University, state colleges, and community colleges to assuring accessible and affordable higher educational opportunity. Rising enrollments clearly show that Massachusetts residents are increasingly seeking public higher education options. In fact, as indicated in the September 2001 edition of ***Postsecondary Education Opportunity,*** Massachusetts ranks first in the nation in terms of the proportion of freshmen entering public institutions during the period 1992 through 1998. BHE data for the most recent three years, 1999-2001, indicate that this pattern is persisting.

The following report presents segmental as well as institution-specific enrollment and admissions data for 28 of the 29 institutions that comprise the three segments of the Massachusetts public higher education system: the University of Massachusetts (4 campuses), state colleges (9 institutions), and community colleges (15 institutions). Though data for the University of Massachusetts Medical School in Worcester is collected, it is not traditionally included in the system enrollment report.

The content and format for this year's report has been improved to provide a comprehensive array of data tables and graphics, giving a more complete picture of enrollment and admissions statistics and trends. The data presented focus specifically on basic enrollment and admissions statistics (*i.e.*, ***Enrollments***: Student Headcounts, FTEs, Degree/Non-Degree Enrollment, Enrollment by Residency, State and Non-State-Supported Enrollment and ***Admissions:*** Applicants, Acceptances, New Student Enrollment, First-time Freshmen Enrollment, Acceptance Rates, and Yield Rates). More detailed information on the demographics and programmatic choices of enrolling students is submitted by the public University and colleges as fall 2001 HEIRS (Higher Education Information Resource System) student unit record files due to the Board of Higher Education on January 30, 2002. A ***Student Demographic Profile,*** describing characteristics of the students attending Massachusetts public colleges and the University - including where they come from and what educational paths they pursue - will be released by the Board in April 2002.

SECTION ONE

DATA HIGHLIGHTS

Number of Students Served Continues to Rise-Highest Recorded in Last Five Years: 181,187 students enrolled in fall 2001 credit courses at Massachusetts public colleges and University generating 123,612 Full-Time Equivalent (FTE) students. This represents 2,830 more students and 3,443 more FTEs than in fall 2000, a 1.6 percent increase in headcount and a 2.9 percent increase in FTEs. It also reflects the highest headcount and FTE recorded in the last five years. A greater rate of increase in FTEs indicates that more students enrolled on a full-time basis in fall 2001 than in fall 2000.

Community Colleges Lead the Way: Mirroring national trends, Massachusetts community colleges continue to be the largest enrolling and fastest growing segment within the three-tiered public higher education system, *i.e.*, University of Massachusetts (4 campuses), state colleges (9) and community colleges (15). In fall 2001, 43.8 percent of credit students attended community colleges; 31.9 percent enrolled at the University of Massachusetts; and 24.3 percent enrolled at state colleges. Community colleges experienced the fifth consecutive year of enrollment growth with a 2.6 percent increase over fall 2000. Headcount enrollment at the University of Massachusetts grew 1.4 percent, while enrollments in the state college segment remained essentially level with fall 2000.

Community colleges also demonstrated the largest percentage increase in FTEs (4.9%) among the three segments generating 46,271 FTEs. The University of Massachusetts had a 2.1 percent FTE increase generating 46,184 FTEs and the state colleges a 1.1 percent FTE increase generating 31,157 FTEs.

Enrollment Gain Largely Undergraduate Students: Enrollment growth at the University is attributed to a 1.7 percent increase in undergraduate students who comprised 80 percent of the University system's total headcount enrollment. State colleges also experienced an increase of (1.6%) in undergraduate students. Graduate student enrollment at the University of Massachusetts remained at fall 2000 levels, while graduate student attendance at the state colleges declined by 5.2 percent.

Massachusetts Public Higher Education Serves Primarily Massachusetts Residents: Massachusetts public higher education institutions serve the needs of primarily Massachusetts residents - a reality once again demonstrated in fall 2001. Nearly nine out of every ten students (89.7%) enrolled in public higher education were residents of the Commonwealth. While undergraduate enrollment is largely comprised of Massachusetts residents (91.3%), a larger share (22.3%) of graduate students at Massachusetts four-year public institutions are, as would be expected, out-of-state students.[1]

[1] Holyoke and Springfield Technical Community Colleges were missing some student residency data.

Largest Headcount Gains at Four-Year Public Institutions (Undergraduate and Graduate students): UMass Dartmouth (4.7%; N=338 students), UMass Lowell (1.7%; N= 208 students) and UMass Amherst (1.1%; N=262 students) attributed for the enrollment gain within the University segment. Worcester (8.8%; N=472 students), Westfield (3.2%; N=161 students), Framingham (2.6%; N= 152 students) and Bridgewater (2.3%; N=199 students) showed the greatest gains among the state colleges.

Largest FTE Gains at Four-Year Public Institutions: UMass Dartmouth (5.3%; N=315 FTEs), UMass Lowell (4.3%; N=348 FTEs) and UMass Amherst (1.1%; N=243 FTEs) experienced the most notable FTE increases within the University segment. Worcester (9.5%, N=341 FTEs), Westfield (4.3%; N=170 FTEs) and Bridgewater (3.0%; N=190 FTEs) showed the largest increases in FTEs among the state colleges.

Largest Headcount Gains at Community Colleges: Eight community colleges sustained enrollment increases higher than the 2.6 percent segmental average. They were: Massachusetts Bay (10.6%, N=497 students), Quinsigamond (10.3%; N= 580 students), Mount Wachusett (9.2%; N= 314 students), Bunker Hill (8.3%; N=528 students), Cape Cod (6.8%; N= 284 students), Holyoke (4.2%; N= 244 students), Massasoit (3.0%; N= 200 students) and Greenfield (3.5%; N= 80 students).

Largest FTE Gain at Community Colleges: FTEs increased at 12 of the 15 community colleges. Four community colleges had FTE percent increases above the 4.9 percent segmental average: Massachusetts Bay (14.7%; N=444 FTEs), Mount Wachusett (14.0%; N=268 FTEs), Bunker Hill (10.5%; N=368 FTEs) and Quinsigamond (10.1%; N=329 FTEs).

State- and Non-State-Supported Undergraduate FTEs: State-supported undergraduate FTEs (N=35,958) comprised 94.5 percent of the 38,039 undergraduate FTEs generated at the University of Massachusetts. UMASS Amherst had the highest proportion of state-supported undergraduate FTEs, 98.5 percent (N=18,136). At the state colleges, state-supported undergraduate FTEs accounted for 23,026 (83.9%) of the total 27,449 undergraduate FTEs generated. At the community colleges, 51.9 percent of the FTEs were non-state-supported and 48.1 percent were state-supported.

Undergraduate Applicants Rise at State and Community Colleges: 115,720 individuals applied for fall 2001 admission to institutions within the Massachusetts public higher education system. This represents a 2.5 percent one-year increase (2,801 more applicants than fall 2000) and the fifth consecutive year of applicant pool increase. The system gain in applications resulted from a 5.6 percent increase at community colleges and a 3.9 percent increase at state colleges.

Three out of every four (74.7%) students seeking admission were first-time freshmen (*i.e.*, never attended college before); 19.4 percent were transfer students; 5.9 percent were students applying for readmission to a community college. System-wide one-year increases were evident for first-time freshmen (1.5%), transfer (3.8%) and readmit applicants (10.9%).

Undergraduate Acceptances and Acceptance Rates: On average for the last five years, three out of every four applicants were accepted into the Massachusetts public higher education system. The acceptance rate for undergraduate students increased slightly from 75.6 percent in fall 2000 to 76.9 percent in fall 2001. The University of Massachusetts rate of acceptance in the fall 2001 increased more significantly than the state and community colleges (*i.e.*, from 69.5 percent to 71.8 percent). The acceptance rate at community colleges also increased from 86.6 percent to 87.8 percent while that of the state colleges remained constant with fall 2000.

Converting Acceptances to New Students- Yield Rates: University of Massachusetts Fall 2001 new undergraduate student yield rate (defined as the number of accepted students who enroll as new students) has on average been 40 percent for the last three years. The yield rate at the state colleges has averaged 42 percent.

New Undergraduate Student Enrollment Rises Across System: The number of new students enrolled at Massachusetts public University and colleges grew 4.6 percent from fall 2000 with gains realized in all three public higher education segments: University of Massachusetts (2.3%), state colleges (4.6%), and community colleges (5.6%). This reflects the largest undergraduate new student enrollment recorded in the last five years. Nearly two out of every three new undergraduate students (65.9%) were first-time freshmen, while another 24.4 percent were transfer students, and 9.7 percent were students readmitted at the community colleges. The number of new ***first-time freshmen*** enrolling in the system increased 5 percent (1,436 students) from fall 2000. The largest increase occurred at the community colleges (5.7%). University of Massachusetts and the state colleges also experienced increases in new first-time freshmen enrollment (4.0% and 3.9%, respectively).

New transfer student enrollment increased 2.6 percent with the state colleges experiencing the largest influx (5.9%). New transfer student enrollment also increased at the community colleges by 3.3 percent. The University's number of new transfers remained at fall 2000 levels. Community colleges also experienced a notable increase (7.5%) in readmit students.

Special Admissions: The Board has established as policy that applicants who are not admissible under the standards outlined for freshman, transfer, or non-traditional students but who are able to appropriately demonstrate their potential for academic success in a four-year program may be admitted at the University and state colleges as special admission students. Board policy dictates that starting in fall 1999, special admit students be limited to 10 percent of new enrollees. In fall 2001, University and state college segment special admissions fell below this cap at 6 percent and 9.6 percent, respectively.

Degree-Seeking Student: A student enrolled in courses for credit who is recognized by the institution as seeking a degree or formal award.
At the undergraduate level, this is intended to include students enrolled in vocational or occupational programs.
Non-Degree-Seeking Student: A student enrolled in courses for credit who is not recognized by the institution as seeking a degree or formal award.

* University of Massachusetts Medical School is not included in this total.

FTE = The number of credit hours generated by students enrolled in credit generating courses in accordance with the following formulas:
15 undergraduate credits = 1 undergraduate FTE
9 graduate credits at UMASS = 1 graduate FTE
12 graduate credits at a State College = 1 graduate FTE
(The difference between UMASS and State College FTE formula is a result of doctoral programs at the University level).

SECTION FOUR

SPECIAL ADMISSIONS

Table 32. University and State Colleges First-Time Freshmen and Transfer Special Admissions by Institution - Fall 2001

		Fall 2001 Admission Categories							
	Total # First-time Freshmen and Transfer Students	Met All Application Requirements		Nontraditional		Met Requirements with Exception Allowances		Special Admissions	
		#	%	#	%	#	%	#	%
Four-Year Institution Total	19,516	16,945	86.8%	246	1.3%	840	4.3%	1485	7.6%
Amherst	5,312	4,981	93.8%	2	0.0%	44	0.8%	285	5.4%
Boston	2,243	1,855	82.7%	95	4.2%	159	7.1%	134	6.0%
Dartmouth	1,643	1,483	90.3%	9	0.5%	7	0.4%	144	8.8%
Lowell	1,760	1,605	91.2%	8	0.5%	50	2.8%	97	5.5%
UMass Segment	10,958	9,924	90.6%	114	1.0%	260	2.4%	660	6.0%
Bridgewater	1,848	1,517	82.1%	32	1.7%	80	4.3%	219	11.9%
Fitchburg	762	715	93.8%	11	1.4%	0	0.0%	36	4.7%
Framingham	1,023	836	81.7%	16	1.6%	40	3.9%	131	12.8%
Mass. Art	397	364	91.7%	9	2.3%	5	1.3%	19	4.8%
MCLA	414	329	79.5%	17	4.1%	29	7.0%	39	9.4%
Mass. Maritime	253	201	79.4%	1	0.4%	35	13.8%	16	6.3%
Salem	1,470	1,014	69.0%	32	2.2%	237	16.1%	187	12.7%
Westfield	1,219	1,012	83.0%	1	0.1%	135	11.1%	71	5.8%
Worcester	1,172	1,033	88.1%	13	1.1%	19	1.6%	107	9.1%
State College Segment	8,558	7,021	82.0%	132	1.5%	580	6.8%	825	9.6%

Note: 2001 BHE Admission Standards limit the number of special admissions to 10 percent of first-time freshmen and transfer students. For Fall 2000 and Fall 2001 only, some campuses seeking greater flexibility in responding to regional needs received permission to admit up to an additional 5 percent of special admission students who meet certain criteria.
